

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

 ANNUAL STATISTICAL RECORD

The December number has usually included an annual statistical table presenting in condensed form a statement of the membership of the Society up to date. That is omitted this year for evident reasons. Only a few chapters have filed statistical reports for the current year. In many cases the changes have been too slight perhaps to call for a new record. In any event the data are so incomplete that it was impossible to make a tabular record for the year 1918 that would have any real significance. Up to the present date conditions have not been favorable for perfecting these records and it seemed wise to postpone publication until the chapters were well organized and in operation. Apparently it will be possible to give such a record at the close of 1919.

In spite of the urgent request of the Executive Committee that all chapters should make permanent records of their elections to membership and of the basis for the same, only eight chapters reported in print in 1918 as against ten in 1917 and twelve in 1916. This was no doubt due in large part to frequent and sudden changes in the official staff of the chapters, as shown by the many alterations made during the year in the list of chapter officers printed on cover page iii. The general situation is also evidenced by the great delays experienced in preparing, printing and distributing the QUARTERLY for which the Secretary presents his apologies.
